*Welcome to
Myanmar*

From the very moment you step foot on the ground in Myanmar you are in for a truly unique experience. Now more so than ever people from around the world are beginning to see Myanmar for what it is - a truly fascinating and unique destination filled with the spirituality of Buddhism beliefs and arguably some of the friendliest and most charming people on this planet.

Welcome to our new capital, NAY PYI TAW!

We are delightedly inviting you to 35th Asian Conference on Remote Sensing (ACRS) 2014 which would be held on the new capital of Myanmar, Nay Pyi Taw at 27-31 October 2014. The conference is organized by ACRS Local Organizing Committee of Myanmar and Asia Association on Remote Sensing (AARS). The Theme "SENSING FOR REINTEGRATION OF SOCIETIES" will find ways of scientific researches to contribute to the emerging societies and communities in the region. The conference will be a platform for gathering of students, teachers, professors, professionals, researchers, scientists, inventors, policy makers and business person. They will promote their findings and will exchange their knowledge amount friends and colleagues in the conference. Business persons will promote at exhibition booths for their products. Moreover, the events such as technical tours, cultural excursion, cultural night, student night will attract your partners, friends and colleagues to ACRS 2014 in Nay Pyi Taw.

The interested research fields are natural disaster, rural development, forestry, agriculture, geology, photogrammetry, geography, environmental conservation, climate change, land cover, land use, hydrology, geodetic survey, meteorology, socio-economic, wetland, coastal zone, water-sanitation-hygiene, engineering, sciences, etc.

Thank you very much.
Sincerely yours,
